

4/27/24 Earth Day WPA Walk

1pm 60 min Nature Walk

Easy Walk to Moderate Hike The Blue Trail is a remnant of the Old Naugatuck Trail. Dirt trail and gravel areas are prominent. Most of the trails have some land bridges or boardwalk crossings.

Join the Woodbridge Park Association (WPA) on a guided walk through Alice Newton Street Memorial Park. On April 27th, during Woodbridge's Earth Day Celebration you, your family, and your *leashed* dog can join a State of CT forester and WPA board member on an informative nature walk. This is an easy to moderate walk from the blue trail to the scenic Wepawaug Falls. Along the way you'll have the opportunity to practice plant ID skills, learn about the Park's forest dynamics, and ask questions. How better to celebrate Earth Day than to become better acquainted with one of your most beloved parks?

Where: 5 Meetinghouse Lane – the Park entrance behind the First Church of Christ

When: Saturday 4/27/24 1 PM, plan for a 60 min walk.
